## LOUISA HAS HOPES FOR A FEDERAL BUILDING

Congressman W. J. Fields to Try For An Early Appropriation.

The following extract from a letter written to a citizen of Louisa warrants the hope that at some not far distant day Louisa may have a Federal building. The importance of the town as the metropolis of the Big Sandy valley entitles it to this consideration:

"It is hardly likely that there will be a Public Buildings Bill passed during the present Congress, or especially during the present session; or at least this is the advice we received a few days ago from the Chairman of the Committee on Public Buildings and Grounds. But as above stated, as soon as the Committee decides to pass another general bill, I will lay your claims before them and exert my best efforts toward securing favorable action."

"I note what you say with reference to calling on me for so much, and beg to ask that you expel all such feelings from your mind. I am glad to have you consult me on any and all matters in which you are interested. No representative can intelligently represent a constituency with which he is not familiar; and I therefore invite the suggestions of my constituents and like for them to command me freely."

"Trusting that it may be my pleasure to hear from you from time to time, I remain,  
"Your friend,  
"W. J. FIELDS."

## CINCINNATI ENQUIRER TO RUN SPECIAL TRAIN DAILY

The Cincinnati Enquirer has been on a deal with the C. and O. railway for some time to subsidize a train for the purpose of carrying its papers every morning to points east of Cincinnati as far as Huntington or Charleston, W. Va. The train as proposed is to leave Cincinnati about 2 o'clock a. m., reaching Ashland in time to catch the Big Sandy train. If this deal is made the Enquirer will reach Louisa before 8 a. m., and Pikeville about 11 o'clock. This is enterprise with a vengeance. The cost is enormous, but the Enquirer does everything on a big scale.

## OIL NEWS.

This may not be a correct headline, for really there are no new developments to be chronicled.

The Busseyville Oil and Gas Co.'s well, not far from one of their best wells, is nearing completion. The Ohio Fuel company's well on Mrs. Lackey's farm near Yatesville, and also on T. H. Burchett's place, are probably almost down to the Berea sand. The latter well is down 1308 feet, and cased.

These wells should be heard from definitely the last of this week or the first of next.

## THE GNE WES CLUB.

This feminine aggregation was delightfully entertained on Tuesday evening last by Mrs. A. C. Holbrook at the home of Miss Mollie Chaffin. There may be some mystery attached the name of the club but there is none whatever about the royal good time the members have when they get together. This latest gathering was a pleasant one in every particular. The out-of-town guests were Mrs. Ralph Gentry, of Lexington, Ky., and Miss Olive Smith, of Defiance, O.

Edward J. Corson, for many years a well known groceryman of Portsmouth, O., died Thursday evening after a brief illness. Corson was an old time "Portsmouth drummer" and was well known here.

Rev. Hamilton, of the Baptist church of Louisa, preached here last Thursday night to a large congregation. His sermon was much appreciated.—Painesville Herald.

Dr. Ira Wellman has moved his office to the second floor of the NEWS building.

## A BILL TO REDUCE ADULT ILLITERACY.

An Illiteracy Commission to assist in the eradication of adult illiteracy in Kentucky is the aim of a bill which has been introduced in the Kentucky Legislature and for the passage of which strong influence in the State are working. The bill was prepared at the instance of Mrs. Corn Wilson Stewart, superintendent of the Rowan county schools, who through her work in the moonlight schools of the mountains has been one of the leaders in the fight against illiteracy among grown persons.

The bill as drafted provides for the appointment of a commission of five persons to be known as the "Kentucky Illiteracy Commission," to procure data through surveys in all parts of the State and to interest persons and institutions in the dispensation of endowments and funds which will aid in the elimination of adult illiteracy.

## EXPANSION OF POWER.

New York, Jan. 31.—The Consolidation Coal Company, which controls the coal mines and electric generating stations at Jenkins, Ky., is arranging to construct 140 miles of high-tension transmission lines, to furnish current to all communities within a radius of 60 miles of Jenkins. To provide power for the new system the generating station at Jenkins will be increased from 6,500 horse power to 12,500 horse power.

## Tuberculosis Causes Death.

Frank Burton, aged 20 years, son of Dr. and Mrs. J. F. Burton, of Rush, closed his eyes in everlasting sleep Sunday morning at 10 o'clock, after an illness of many months, due to tuberculosis, and borne with rare patience and cheerfulness.—Ashland Independent.

The young man had numerous relatives in this county.

## MRS. GEORGE JUSTICE DIES OF HEART TROUBLE

Estimable Woman Passes Away After A Long Illness.

After months of sickness, marked at times by intense suffering, Mrs. George Justice passed peacefully away on Saturday night, Jan. 31st, aged about 42 years. Heart disease, with serious complications, was the cause of her demise at this comparatively early age.

On Sunday afternoon the body was taken to the Baptist church, where the pastor, the Rev. Olaus Hamilton, conducted a brief and appropriate service. Every part of the spacious building was completely filled with the friends of the deceased. At the conclusion of the service the remains were interred in the burial plot between the two cemeteries.

Mrs. Justice is survived by her husband and six children, only two of whom are grown. She was a woman of quiet, domestic habits, a faithful wife and a devoted mother. When she realized that the great and final change was about to occur she declared her preparedness and readiness for her departure.

Bills announcing the appearance of the favorite Carrolls at Eldorado Thursday, Friday and Saturday nights are out. Louisa people will remember these well known stage-folk and will show their remembrance by their patronage on this occasion.

Mr. and Mrs. C. B. Crutcher's young daughter, Beatrice, who has been sick of typhoid fever several weeks, is much improved and on the high road to entire recovery.

G. W. Castle, Assistant State "Prober," rolled in with the evening train Wednesday from the Southern part of the State. He expects to leave for another tour next week.

Mr. and Mrs. F. P. Moses and two children and Mr. and Mrs. Ralph Gentry and child are domiciled at the Louisa Inn. Moses and Gentry are traveling salesman.

## REQUISITIONS FOR PIKE COUNTY MEN

Six Kentuckians Wanted at Huntington on a Murder Charge.

Frankfort, Ky., Jan. 30.—Deputy Sheriff D. W. Frampton, of Huntington, W. Va., arrived in Frankfort to-night with requisitions from the Governor of West Virginia for six Kentuckians, indicted at Huntington for the alleged murder of a son of L. G. Fidler, of Pikeville, Ky., in Huntington March 19. Two of the men, John M. Hall and John Mitchell, are in jail at Catlettsburg, but the other four have not been arrested and Mr. Frampton declined to disclose their names.

Young Fidler and a party went to Huntington on the day he was killed and next day his mangled body was found on a railroad track. Mr. Frampton said they had secured evidence to prove that Fidler was murdered by being beaten on the head with a blunt instrument and his body was taken in a taxicab and placed on the track. All the men implicated belong to prominent families in the Big Sandy section.

Mr. Frampton went to the executive mansion to-night and his requisitions were honored by Gov. McCreary.

## MRS. ELIZABETH CRUM CELEBRATES BIRTHDAY.

One of the most unique and interesting affairs in the history of any family of this section was the "family tree" celebration held recently at Crum, W. Va., in honor of the ninety-fourth birthday of Mrs. Elizabeth Crum, of that place.

Over three hundred members of the family, including children, grand children, great grand children and great-great grand children attended the affair and every one present brought some present to be hung on the family tree.

This worthy old lady has nearly six hundred relatives, and all who were unable to attend the reunion sent presents, so that the big tree was loaded down with many loving remembrances to cheer the last days of her long and useful life.

## MARSHAL C. B. ROSS.

On Tuesday evening the city council of Louisa met in regular monthly session, with Mayor R. L. Vinson presiding and all the members being present. The usual routine business was transacted, after which Charles B. Ross was elected Marshal. There were only two candidates, Ross and "Huak" Smith, the former receiving a majority of five votes. Mr. Ross gave an official bond and was sworn in. Later he will give a bond for the collection of revenue. Beyond this election and the allowing of some claims little was done, and after the use of a large amount of language council adjourned.

P. S.—We are promised better streets.

## CONTRACT FOR PIPE.

New York, Jan. 31.—The Huntington Development and Gas Company, which company is now furnishing natural gas for industrial purposes in the Huntington, (W. Va.) district, has let contracts for 20 miles of 12-inch pipe line, and will build a large compressor station, of which the cost will be \$250,000. It is also planned to build 40 miles of 12-inch pipe line the coming summer.

## FOUND DEAD.

The body of a man, later identified as that of Frank Bocock, of Buchanan, was found near Catlettsburg Saturday last. It is claimed that he had been struck by a C. and O. train.

The Appellate Court reversed the judgment of the Boyd Circuit Court in the case of Martha Ann Hinkley's administrator against the Chesapeake and Ohio Railroad Company, holding that there should be a trial of the case. She was killed while walking on the track near Ashland.

## HAD BEEN EJECTED FROM TRAIN FOR DRINKING.

Local C. & O. surgeon, Dr. G. W. Wroten, was called at a late hour Monday night to the passenger depot to see a man who claimed to have fallen or to have been ejected from No. 38, between Fullers and Potters. Examination failed to reveal any signs of injury. The man seemed to have been drinking, and when asked if he had been he admitted that he had drunk while on the train. The man's name is Emory Williams, and he gave his residence as Honaker, Ky. He was brought up from Potters on a hand-car by Henry Johns, and after the surgeon's visit he was taken to lodgings and cared for. Investigation showed that he had been put off at Fullers or Potters for drinking on the train.

## AFTER THE PISTOL "TOTEL."

Frankfort, Ky., Jan. 30.—Without a dissenting vote the Senate today passed the Arnett bill, as amended by the committee, fixing drastic punishment for the carrying of concealed deadly weapons. Under the provisions of the measure a first conviction carries with it disfranchisement for two years, besides a fine of from \$10 to \$100 and jail sentence from ten to forty days. The penalty upon second conviction is confinement in the penitentiary of from one to five years. The amendment by the committee provides a fine of from \$10 to \$50 for the Circuit Clerk or Sheriff who fails or refuses to issue a capias or execute the judgment.

## SET FIRE TO MATTRESS.

On Thursday last some prisoners confined in the county jail set fire to a mattress in one of the cells. The smoke nearly suffocated them, and after they had choked awhile the jailer thought they had been sufficiently punished and went to their relief.

## GOOD ENTERTAINMENT AT ELDORADO THEATER

Local Amateurs Gave A Splendid Play Wednesday Evening.

The choir of the M. E. Church of this city gave an excellent entertainment at Eldorado Wednesday evening, presenting the drama "Under The Laurels," to an appreciative audience which packed the auditorium door to stage. The intervals between the acts were agreeably filled with musical features well presented by local artists. Following is the cast of characters:

Frank Colewood . . . O. C. Atkins  
Kylie ("Ky.") Brantford, J. M. Cain  
Ike Hopper . . . Evert Thompson  
Bob Buttou . . . O. C. Gartin  
Zeke (Darky) . . . Fred Cain  
Sheriff . . . Herschel Vanhoose  
Mrs. Milford . . . Elizabeth Lester  
Rose Milford . . . Roberta Dixon  
Polly Dowler . . . Jean Fitch  
Sooky Buttou, Laura Belle Miller

## EXAMINING TRIALS.

Judge Clayton, of the County court, held two examining trials last week. The first was that of George Brown, alias J. C. Castle, charged with forgery. It is alleged that he forged the name of Elijah Gartu to a check drawn on the Bank of Blaine. The defendant waived an examination and in default of bail for \$300 was committed to jail.

The other case was that of Pearl Thompson, charged with cutting Martin Potter, of Catulpa, with a knife. He gave bail in the sum of \$500.

## Anniversary Meeting of Club.

Feb. 9, 1914 will be the 2nd anniversary of the N. K. W. Club. We will meet at 2 o'clock in the home of Mr. and Mrs. R. T. Burns, with Mrs. Mary B. Horton, leader. There will be a resume of the record of the club for the past year. Each member will tell what has been the most interesting of club work to her. These meetings are very instructive as well as interesting. MRS. H. C. OSBORN, Sec.

## SUNDAY SCHOOL FORCES PLEASE TAKE NOTICE

Institute for Sunday School Workers to be Held in Louisa.

Resolutions were adopted at each of our last two County Conventions, calling on the Executive Committee and County officers to hold at Louisa an Institute for Sunday School workers. For good reasons it has not been practicable heretofore to comply with the request of the Association; but we now have an opportunity to have with us on the 27-28 of February, and the first of March, General Secretary, Dr. G. A. Joplin, Elementary Field Worker, Miss Maud L. Dance, State Superintendent, Mrs. Agnes L. Elford and Field worker, W. J. Vaughan, believing that it would be an injustice to ourselves and to the cause not to avail ourselves of this splendid opportunity, we have decided to announce that the Institute as requested, will be held on the days above mentioned. Let all who desire to increase their efficiency in the work of religious education, come it will be worth your while.

## HE ENJOYED HIMSELF.

Monday, February 2nd, was a beautiful day. The ground hog came out of his house as he frequently had done during this mild winter and enjoyed himself much in the genial sunshine. As the shadows grew longer he went into the house, also as he frequently had done, and will come out again every pleasant day. And we shall continue to have weather of the usual February and March brand just the same as we usually have during the six weeks following February 2nd.

## ENGLISH AS SHE IS SPOKE.

"I seen her when she done it," said the girle on the train. "I seen her when she done it, and she done it just as plain. She never had no bringin' up, she acts just like a fool, I haven't saw such manners since I was a kid at school. Just between you and I, my dear, her education's bad; she doesn't speak grammatical, her English makes me sad." "I've often saw the lady," said her escort on the train, "and all them fool mistakes she makes would give a guy a pain. It's just as easy to talk right, like fellows in a hook, and that's why I remember all the lessons I have took. You'd think she'd be more careful of grammatical mistakes. Why don't she talk like I and you and not make all them breaks?"

Mr. and Mrs. George Atkinson left Sunday for Ft. Pierce, Florida, where they expect to remain a month or two.

## TEN MONTHS IN PEN FOR PISTOL "TOTING."

In Judge Damron's court in Williamson last week the first case disposed of was that of Charles Hobbs, of Warfield, Ky., indicted on one count for carrying a pistol and two counts for assault and battery.

Hobbs, through his attorney, pleaded guilty on all counts. He admitted that he had brandished a pistol on the streets of Kermitt and that he had attacked two men, but pleaded leniency on the ground that he was intoxicated at the time of the offense.

Judge Damron sentenced him to a 16 month term in the penitentiary and fined him \$100 on the pistol charge.

## REQUISITION FOR MAN INDICTED IN LAWRENCE.

Frankfort, Ky., Jan. 31.—Sam Carter, indicted in Lawrence county on a charge of false swearing at his own trial for discharging firearms in the public highway, is under arrest at Portsmouth, O., and Gov. McCreary to-day issued a requisition on the Governor of Ohio for his extradition. Sheriff R. A. Stone, of Lawrence county, secured the requisition and left this afternoon for his prisoner.

## WILL RECEIVE CO. DIPLOMAS.

There were 34 applicants in the recent examination for Common School Diplomas and 25 will receive diplomas:

Eskel Adams, Ida Wheeler, Rachel Wheeler, Amos Cordle, Allen Miller, Sam Moore Charley Miller, Burt Ball, Willie J. Burgess, Rebecca Garred, Bessie Bradley, Nancy O. Garred, Onolda Shannon, Ester Alley, Willie Hale, Audra Chapman J. Frank Preston, Marie Bradley, June Adkins, Carson Elswick, Blanche Hensley, Don Preston, Estill Barker, J. N. Boggs, and Bessie Huette.

Nine failed to make the required grades. J. H. EBERS, Co. Supt.

## COURT OF APPEALS SUSTAINS RAILROAD RULES

Decides That Company Has a Right to Enforce Reasonable Regulations.

Frankfort, Ky., Jan. 30.—The rule of a railroad prohibiting passengers reversing seats and requiring them to sit facing forward in a passenger coach "is reasonable and should be enforced. It is in the interest of sanitation, cleanliness and the preservation of public health," said the Court of Appeals this morning in an opinion written by Judge Turner, reversing a verdict for \$3,000 awarded in the Franklin Circuit Court to F. M. Spiller, who was ejected from a Chesapeake and Ohio train because he refused to take his feet off a seat and permit the conductor and brakeman to turn the seat over.

Judge Turner said the temptation for a passenger to put his feet on a seat when it is reversed is great, and the practice results in the filth and germs from the shoes being transferred to the seat of the car.

Spiller boarded the train at Louisville March 3, 1912, bound for Frankfort. The car was not filled and he sat in a seat facing backward. The conductor demanded that he permit the seat to be turned. He refused and the conductor and brakeman ejected him from the train. He brought suit and was awarded \$3,000 damages.

In conclusion Judge Turner said in his opinion: "The trouble grew out of the obstinate and persistent refusal of appellee to comply with the regulations after having been three times politely requested to do so, and if in the melee his leg was injured or he was humiliated or mortified by his ejection, it is chargeable alone to his own unreasonableness and reprehensible conduct."

## FOR RIVER WALL.

Kentuckians who appeared before the House Rivers and Harbors Committee were encouraged to believe that an appropriation of \$25,000 will be authorized during this session of Congress for completion of the river wall at Catlettsburg.

## Sheriff's Sale for Taxes.

On Monday, February 16, 1914, about 1 o'clock p. m., I or one of my deputies will offer for sale, from the front door of the court house in Louisa, Lawrence County, Ky., the following described real estate, or so much thereof as may be necessary to produce the amount of taxes, cost and penalty due against said parties, as stated. ### EAT CABBAGE, FISH SAUSAGE, NEW BREAD.

No Indigestion, Gas, Sourness or Upset Stomach if you'll take "Pape's Diapepsin"—Try This!

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic jot this down: Pape's Diapepsin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. "Pape's Diapepsin" is quick, positive and puts your stomach in a healthy condition so the misery won't come back.

You feel different as soon as "Pape's Diapepsin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations, no undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, or any stomach disorder.

## KENTUCKY NEIGHBORS.

John O. Hill, one of the oldest residents of Kentucky, he being past 98 years of age, was called Friday night by the grim messenger of death. He lived in Russell.

An attempt to assassinate Henry Bates, son of Robert Bates, leading citizen of Knott county border, and David Williams resulted in the former being shot through the left thigh, painful wounds having been inflicted. Williams was shot through the right ear. An effort will be made to ascertain the guilty parties. A reward will be offered.

William Osborne, of near Malont, Boyd-co., shot and seriously, although not necessarily fatally injured, his brother-in-law, Fred Newsome, following a quarrel which arose over Osborne's son.

It is claimed that young Osborne became quarrelsome with Newsome Sunday and the argument that ended in Newsome forcibly ejecting Osborne from the porch in front of his store. Going to his home, Osborne, related to his parents what had happened. Angered by his son's story, Osborne, it is said, started out to avenge the act, as it is reported that Newsome slapped young Osborne two or three times.

Whitesburg, Ky., Jan. 29.—An interesting and remarkable family are the Shells, John, William and Mary Shell, brothers and sister, living on Cut Shin Creek in Leslie-co. below here—where they have resided for nearly a century. Uncle John Shell is reputed to be 113 years old and by profession is a miller, operating a water mill on Cut Shin. He is as active as many people at 75.

Uncle William, commonly known as "Uncle Billie," is 110. He, too, is enjoying splendid health and is very active for a man of his years. "Aunt Mary Shell," who has never married, is 104, and, like her brothers, is a remarkable personage, well preserved for a woman of her age and has every indication of living many years yet.

### BREAKS A HAD COLD IN A JIFFY! TRY IT.

"Pape's Cold Compound" ends cold and gripe in a few hours—Don't stay stuffed up!

You can end gripe and break up a severe cold either in head, chest, body or limbs, by taking a dose of "Pape's Cold Compound" every two hours until three doses are taken.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dizziness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffling! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound", which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Be sure you get the genuine.

### HURRICANE, W. VA.

Mr. Maynard, who has been sick for some time, is better.

There will be preaching at Little Hurricane every Wednesday night.

There will be an entertainment at Big Hurricane school house Feb. 7.

Miss Dollie Massee, of Lodi, is visiting her sister, Mrs. Hatten.

Mrs. Mollie Perry, of Huntington, is visiting at this place.

### WANDERING JEW.

## NEAR DEATH BY SMOTHERING

But Husband, With Aid of Cardui, Effects Her Deliverance.

Draper, N. C.—Mrs. Helen Dalton, of this place, says: "I suffered for years, with pains in my left side, and would often almost smother to death."

Medicines patched me up for awhile but then I would get worse again. Finally, my husband decided he wanted me to try Cardui, the woman's tonic, so he bought me a bottle and I began using it. I did me more good than all the medicines I had taken.

I have induced many of my friends to try Cardui, and they all say they have been benefited by its use. There never has been, and never will be, a medicine to compare with Cardui. I believe it is a good medicine for all womanly troubles."

For over 50 years, Cardui has been relieving woman's sufferings and building weak women up to health and strength. If you are a woman, give it a fair trial. It should surely help you, as it has a million others.

Get a bottle of Cardui to-day.

Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for Special Instructions on your case and 64-page book, "Home Treatment for Women," in plain wrapper, N.C. 100.

## WEST VIRGINIA NEIGHBORS.

Wheeling, W. Va., Jan. 31.—William Kinnon was perhaps fatally burned when he returned to his burning house today to save money that he had forgotten when driven out by the flames. John Scott, who was overcome by smoke in a precarious condition.

Guy Plymale, a venerable and respected citizen of Wayne-co., died suddenly of heart failure, early Thursday morning at his home near Dunleith. He was found dead in a rocking chair.

The deceased was well known throughout southern West Virginia and had a large number of relatives and friends who will learn of his death with sadness.

Mr. Plymale was in his 73rd year when death called him.

The funeral was conducted by Rev. Jerry Harmon Friday at 11 o'clock, a. m., after which the body was buried in the family cemetery.

Wheeling, W. Va., Jan. 31.—That the Johnson anti-pistol toting law as it operates in West Virginia, in large measure defeats the very purpose for which it was designed, was the declaration by Prosecuting Attorney Robert M. Addleman in discussing a recent murder case.

On that occasion Addleman said that the law affected only law-abiding citizens and placed them in the position of being without protection against murderers and thieves who ignored the law.

Addleman said that crooks would carry guns and weapons no matter how stringent the law may be, while honest men, who abide by the law are made to suffer.

"It is a big problem and one that I would not care to pass judgment on hastily," the prosecutor stated, "but in many ways it would seem better if the law, as it now stands, should be repealed."

Huntington, Jan. 31.—Richard Mather, resident engineer for the Baltimore and Ohio Railroad Company, was summoned yesterday afternoon to appear as a defendant in a \$20,000 damage suit instituted by Dr. Thomas W. Moore. The suit, which was instituted by George S. Wallace is presumed to be an echo of an accident which occurred last summer at the corner of Fourth- and Eleventh-st., in which Dr. Moore was struck by Mr. Mather's automobile and seriously injured that he lay for many weeks in the Huntington Hospital so low at times that it was feared he might not live, and from which it is said, he has not yet fully recovered.

The Malu Island Creek Coal Co., Charleston, W. Va., has reorganized with a capitalization of \$500,000 and is proceeding with its proposed developments in Logan-co., West Va. It is opening ten mines, and will open four additional mines upon completion of a 10-mile railway which will be constructed to connect with the Chesapeake and Ohio railway. Contracts have been awarded for the construction of three power plants of 400 horse-power each, 500 houses, various other buildings, etc. Officers elected as follows: President, John Laing, of Charleston; first vice-president, J. F. Johnson, of Welch, W. Va.; second vice-president, James Stratt, of Blanford, W. Va.; secretary-treasurer, O. O. Cooper, of Hinton, W. Va.

Charleston, W. Va., Jan. 30.—West Virginia distilleries will not be permitted to manufacture their products in this state and sell them out of the state when the Yost prohibition statute becomes effective next June, according to the interpretation of the law by Prohibition Commissioner Fred O. Blue. This was one of the rulings announced to-day.

That the social club, often the oasis in prohibition territory, will be eliminated when the saloons are banished was indicated by Commissioner Blue. He holds that "clubs and associations cannot keep, and will not be permitted to keep intoxicating liquors of any kind about their premises, nor can individual members of such clubs or associations have or keep for their personal use liquors of any kind at clubhouses or houses belonging to association of like kind."

Transportation companies, under the prohibition statute, will be surrounded with stringent regulations and will be permitted to receive consignments for delivery only at stations where regular agents are employed. The transportation companies will be required to keep special records showing the name of the consignor and consignee; the kind and quantity, the date delivered, by whom delivered and by whom received.

## "A Perfect Woman Nobly Planned To Warn, to Comfort and Command"

Nature never intended woman to be delicate, ailing, or a sufferer from "nerves." Women in middle age complain of "hot flashes." Many women suffer needlessly from glibness to vomit, and from motherhood to middle life, with backache, or headache, dizziness, faintness, or bearing-down sensations. For a permanent relief from these distressing symptoms nothing is so good as

GUESS WHO.

YOUR HAIR BECOMES LIGHT, WAVY, FLUFFY, ABUNDANT AND APPEARS AS SOFT, LUSTROUS AND BEAUTIFUL AS A YOUNG GIRL'S AFTER "DANDERINE HAIR CLEANSER." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it surely get a 25 cent bottle of Kuowilton's Danderine from any druggist or toilet counter, and just try it.

Make it thick, glossy, wavy, luxuriant and remove dandruff—Real surprise for you.

Yours truly,

YATESVILLE.

The oil well on the land of L. N. Hutchison was shot last Thursday, the 29th. The result was very satisfactory to all concerned, as the oil shot up to a great height above the derrick. The two wells drilled on the land of William Savage are also giving satisfaction as there is now tanked at the last two named wells 600 barrels of the best article of crude oil. The other two wells now being drilled, one on the land of Mrs. Lackey and one on the land of Thomas Burdett will be drilled in during the present week.

Mrs. J. M. Riffe, Landon Carter, Millard Short and James Short are all on the sick list.

Mrs. Polly Walker, of Chattaroy, West Va., who has been sojourning here for some time past on account of the sickness and death of her mother, Mrs. Sparks, has returned home.

Brother Thomas Murphy, of Morgans creek was here Sunday and assisted in our Sunday school organization, which Sunday school will be held at 9 a. m. each Sabbath.

Attorney Richard Moore was here, looking after the affairs of Mrs. Lackey's farm.

All the mines here are still drenched, which is very inconvenient to the oil well drillers on account of their having to cross the Riffe hill to Catt for the coal to run their machinery.

Preaching here the second Sunday in each month by our preacher, the Rev. J. M. Hicks.

H. S. King, a representative of the Guyan Oil Co., was here recently on business.

## BUNCH OF SWEETNESS.

DID CHILD WAKE UP CROSS OR FEVERISH?

Look Mother! If tongue is coated give "California Syrup of Figs" to clean the bowels.

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhoea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ills; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious "fruit laxative," and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look and see that it is made by the "California Fig Syrup Company."

Counterfeits are being sold here. Don't be fooled!

## A REAL COAT OPPORTUNITY

Coats From Our Regular Stock And Every One Of Them Women's, Misses' and Juniors'

We have decided to make a very quick clearance of our remaining stock of Coats, and this means a real coat opportunity.

While the assortments are not large, the showing does not represent the usual "tag end of the season's appearance" but rather it is a smart showing of the late winter models.

There is a good assortment of colors in all the better fabrics—Chinchillas, Novelty Serges and Coatings, Zibelines and Bedford Cords.

Our entire stock of Women's, Misses' and Juniors' Coats has been divided in two lots and they are so cheap we don't see how you can keep from buying.

DANCING DOLL.

## FROM TEXAS.

Well, January has proved to be a dry, windy month up to the 29th. Some are sowing oats, as we call it in the mountains, but here most all small grain is drilled in with four horse seeders. Those who are not ready for the seed drills are pre-drying pulverizers. I have not seen paring their land with valley plows a reversible hill side plow since in Texas, though they could be used to great advantage here as they are economical, and would save the necessity of so much hack furrowing as we call it here. There is economy in the right kind of plowing. All rolling lands should have the furrow turned up in stead of down.

The same land so plowed will last about twice as long as if turned down. Of course it is easier for man to throw it down hill and over the bank and into the branch or creek or against the fence, etc. But who would not rather have the soil moved up on his land, say ten inches than down ten or twelve inches. Here is something for all farmers to study about and practice in the use of the plow.

We have a stock law here and much land has no fence along the public roads. No crooked rail fences, all are barbed wire. The general appearance is that the old fences have stood for a generation or more. I have seen where the growth of the trees had grown over the wires some 12 to 15 inches deep. The "Bodark" is a native of Texas. Good "Bodark" posts will last 50 to 100 years. I think a good Bodark wagon has been said to last 50 years.

Tonight is warm and cloudy and indicates rain to a stranger. But Texans call weather prophets "new comers" or an "old state man," etc.

I have seen one aviator some several hundred feet high on his way to Dallas, and watched him disappear like a migratory bird of the air. It seems almost in credible but such is the skill and progress of man.

G. P. SALYER.

## \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

## Changeable Climate

IS A CONSTANT THREAT TO THE HEALTH OF THE PEOPLE.

Dr. Hartman, of Columbus, Ohio, discusses an important health topic. He says:

Yes, it is the climate, not the germs, that we have to fear in this country. The germs are present, to be sure, and are of some significance in diagnosis. Climate, a changeable climate, is the true cause of disease. The atmospheric pressure varies, the humidity of the atmosphere changes. Every day the temperature rises and falls. All this presents to the body very great trials to adjust to.

The area of high pressure forms in the northwest. Moves rapidly southeast, subjecting millions of our population to its influence. The result is, thousands upon thousands of people catch cold. A small per cent. of these thousands do not get well of their cold. It goes into pneumonia, or chronic catarrh, or bronchitis, or laryngitis, or pleurisy.

Now, what I am getting at is this. These climatic changes are inevitable. No one can prevent them. The very best we can do is to prepare for them, defend ourselves against them.

Good health is the best preventive. The very best. Vigorous health, with excess vitality, this is Nature's own preventive and protection.

We do not all have this, however. Some of us must have assistance. The assistance that I use for myself, would recommend for my friends to use, my neighbors and my countrymen, is Fe-ru-na. Keep Fe-ru-na in the house.

If the children indicate they are catching cold, give them Fe-ru-na.

If the parents, the grandfather or grandmother, present those symptoms that are so well known which precede a cold, a few doses of Fe-ru-na and the deed is done.

Some people are very subject to colds. Others who have weak lungs and are timid about our winter weather, take Fe-ru-na off and on during the whole winter season. The plan is a good one. The medicine is inexpensive. It does no possible harm to the system. It keeps the appetite regular and keen. It assists digestion and helps the user through the inclement weather of winter.

Ask Your Druggist for Free Fe-ru-na Lucky Day Almanac for 1914.

Lum Holbrook, of Cincinnati, is here. He and his family will return to Louisville for residence.

SNOW HIRD.

Washington, D. C.—Transplant the tobacco crop as early as possible in order to mature it before the appearance of the most destructive generation of the tobacco spittleworm advises bulletin No. 59 of the De-

partment of Agriculture, in making recommendation for the control of this worm. When the early infestation is very severe, prime off and destroy the infected leaves; destroy all tobacco stubble as soon as the crop is harvested to prevent the breeding of a hibernating generation clean up and destroy all trash in and around fields and tobacco barns; do not follow potatoes by tobacco if the infestation of tobacco has been more severe in such cases than where different rotation was followed; grow potatoes as far as possible from tobacco fields.

In Cuba and the United States the spittleworm is known on tobacco as a leaf-miner only. Only the older tobacco leaves are affected unless the infestation is very severe; and in these, the lower leaves, grayish, irregular blotches are produced, which later turn brown and become fragile so that the tobacco is unfit for wrappers. At Clarksville, Tenn., where the infestation is very slight, the larva in most cases begins work in the "ruffles" along the midrib and they afterward migrate and form mines in various parts of the leaf.

#### LITTLE MISSIE.

#### 10 CENT "CASCARETS" STRAIGHTEN YOU UP.

No Sick Headache, Biliary Stomach, Coated Tongue or Constipated Bowels by Morning.

Get a 10-cent box now.

Turn the rascals out—the headache, biliousness, indigestion, the sick sour stomach and foul gases—turn them out tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

A Cascaret tonight straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken.

#### UP IN HEAVEN.

Up in heav'n, up in heav'n

Here our loved ones fade from sight

But in heav'n, but in heav'n

We shall meet on plains of light

Up in heav'n, up in heav'n

Kavanaugh Sunday school has again been called upon to send a representative "Up to Heaven."

She was ill only five days. At first they thought it was only cold, slightly jaundiced, but the day she died early that morning the disease had developed into meningitis. Dr. Bond, who had charge of the case and did all that human power could

### Wonderful ROOT JUICE Will Bring You Joys of Health Beyond Your Brightest Hope. Guaranteed.

"I could scream with joyous delight at the wonders that this glorious ROOT JUICE has accomplished for me." That is the verdict of hundreds of women. You'll say the same thing when you know what it means to be free from your burden of misery and ills and aches and nervousness.

You haven't any idea of the grand things this wonderful medicine is accom-

Suffering Women, Try ROOT JUICE.

Share My Joy. The glorious results cannot be described. The relief must be felt to be truly appreciated. No wonder women say "I could scream with joy." Such relief and comfort is too great to be unproclaimed.

You know what it means to drag yourself about day after day, miserable, half sick, tired, worn, weak, despondent, discouraged, blue, with no interest in things, no ambition, no energy. You know what it means to feel your nerves bristling, screaming, all on edge, seeming to rob your brain of its power to think and feel that you will simply go mad. You know what it means to suffer the pains and aches and discomforts of your sex—those awful feelings that no one but a woman can understand.

Now think! How will you feel when all this has vanished? How will you feel when wonderful ROOT JUICE has relieved you of these symptoms—when you can go about your duties full of vim and energy and find each task a pleasure? How will you feel to be free from dragging aches and pains, free from that terrible nervous tension and to feel well and strong in mind and body—just like your old self again?

Try it. Try ROOT JUICE for ten days on a positive guarantee, a guarantee mind you, that means money back instantly if you are not perfectly delighted with the results. It's easy to take, tastes good, and a better medicine for weak, worn-out, run-down men and women was never made. Don't let anybody talk you out of it. Try ROOT JUICE this time. You'll be thankful the longest day you live. All first class drug stores carry ROOT JUICE; one dollar per large bottle and they guarantee it—relief or money back instantly.

do, then told the parnets it was mor serious than they realized and while he knew he was doing everything that could be done for her, yet for their sake he would like for them to call in another doctor for consultation. They asked for Dr. A. P. Banfield, of Catlettsburg, Ky. This was agreeable to both parties, so he was sent for. Dr. Banfield left six or eight patients at his office to come, but about half an hour before Dr. Banfield got there the Great Physician of the Universe came and called her to go to her beautiful home where sickness and sorrow can never come.

It was hard to part with this dear child, yet somehow God made us feel that He had sent her for a little missionary to her loved ones and that He was satisfied with what she had done and now He needed her in Heaven to complete the work which her influence had begun.

Charlotte was the only living child of Charlie and Levia Chadwick. They almost idolized this child as did also her grandfather and grandmother McSorley.

Our hearts just ached in silent sympathy as we felt the deep grief when Levia asked Charley, "what they would do without her?" When he answered, "We'll just have to do the best we can." I thought surely this is like, "taking out the right eye." Her grandparents loved her as they did their own children. She also leaves uncles and aunts who shall sadly miss her smiling face and loving voice.

Charlotte's gentle loving disposition made her a general favorite with the whole community. She loved to read the Big Sandy News, for this reason her mother suggested this "little love token to her memory" be sent to this paper.

One of her favorite songs at Sunday school was, "Help Somebody today." It always seemed to the writer that she just really enjoyed singing this song and it was the only one she would volunteer to lend for us, if there was no one else present who could. We shall miss her sweet voice in the Sunday school. Her mother told me that Charlotte was getting to be such a help to her with her work that we believe she tried to live the song that she has so often helped us sing.

She was buried Jan. 28, 1914 in the churchyard just outside the window of her S. S. class. Many relatives and loving friends gathered around the flower-bedecked casket and listened to some of her favorite songs sung by the Hutchinson choir. Bro. Ellis Yoke, the pastor read the scripture lesson, then Bro. J. O. Black spoke to the people words of comfort and warning. After which little Charlotte's body was laid to rest in the white lined grave until the trumpet shall sound and the

dead in Christ shall rise first. "Then we which are alive and remain shall be caught up together with them in the clouds to meet the Lord in the air: and so shall we ever be with the Lord." 1 Thess 4:16-17

THE ACTS OF H. C. SULLIVAN

AS CHAIRMAN, CO. EX. COM.

The following letter was written to each precinct chairman:

Sept. 18, 1913.

C. C. FLANERY,

Precinct Ch'n No. 2,

Webbville, Ky.

Dear Sir:—I congratulate you in being chosen chairman of your district, and I promise you as County Chairman that your wishes and desires will be treated with kindness and fairness by me. Please let me know of any suggestion from your precinct. This is an important time in the history of the great Democratic party with her progressive principles, and the reins of both the Federal Government and State affairs in its hands. Let's make a united effort for all our nominees, and then the time come when each of us shall be rewarded for our fidelity. Sincerely yours,

H. C. SULLIVAN,

Ch'n Co. Ex. Com.

Second Letter.

Dear Friend:—We have concluded the precinct chairmen shall choose the Inspector and Challenger, as he is on the ground. We suggest that one man fill both places as it can be given closer attention by one. Try to get a man that is a good counter and will stand for the right. You send us the name and we will make the appointment and send to him. We are hopeful for success for the entire ticket.

Yours very truly,

H. C. SULLIVAN,

Chairman.

Third Letter.

I have no copy of this letter but it was in substance this:

Our election is over and we have gained half of our county ticket. I am sorry for our friends that have been defeated, yet we have elected our Representative and Senator the former of which it has been a long time since elected in this district. It has been a source of pleasure to me as I wrote many of my friends, both Republicans and Democrats in their behalf. Thanking you for your interest,

Your friend,

H. C. SULLIVAN.

Fourth Letter.

A copy of the following letter was mailed to James B. McCreary, D. H. Smith, J. C. W. Beckham and A. O. Stanley:

Hon. Sir:—It will be our purpose, duty and pleasure to place before this people the public life and principles you desire as a candidate for U. S. Senator. I will see to it personally that each precinct chairman receives any written matter sent to me as county chairman. We hope to be able to treat each candidate fairly in this family contest.

Respectfully,

H. C. SULLIVAN.

## HOME CIRCLE COLUMN.

COLUMN DEDICATED TO TIRED MOTHERS AS THEY JOIN THE HOME CIRCLE AT EVENING TIDE.

### Practice Makes Perfect.

A young man who is thoughtful for others is most likely to be well-mannered. Let him practice his manners at home, treating his mother and sisters with courtesy, and then when he goes abroad his manners will be easy and graceful. Many men have disagreeable table manners. Mothers should be careful to teach their boys and girls to sit erect at the table, not to lounge in the chair nor lean over the plate, nor put the elbows on the table. Keep the hand still in the lap when not used in conveying food to the mouth. Learn to eat quietly, do not smack the lips or make any noise with the mouth. Keep the mouth closed when chewing. Put a small portion of food into the mouth and keep the lips together until it is masticated. Nothing is uglier than to see a person chewing with the lips apart. Help yourself moderately from the dishes passed to you. And remember that the table is not simply a place for eating, but also for conversation. If you are invited out to dinner your hostess will not feel that you have done your part if you do not add something to the occasion thru conversation. If you have any information on subjects under discussion give it to the company. If you would be a success socially, you must be able to talk intelligently about current topics. Cultivate a low, pleasant voice, and practice will soon make you a ready talker. If you have anything to say, Practice makes perfect, and a boy can add much to his power as a conversationalist as well as to the pleasure of home life by conversing pleasantly at his mother's table.

### Enjoyment At Home.

Don't shut up your home, lost the fun should fade your carpets; and your hearts, lest a merry laugh should shake down some of the dusty old cobwebs there. If you want to ruin your sons, let them

think that all mirth and social enjoyment must be left on the threshold without when they come home at night. When once a home is regarded as only a place to eat, drink, and sleep in, the work is begun that ends in endless degradation. Young people must have fun and relaxation somewhere; if they don't have it at their own hearthstones it will be sought at other and perhaps less profitable places. Therefore, let the fire burn brightly at night and make the homestead delightful with all those little arts that parents so perfectly understand.

Don't repress the buoyant spirit of your children; half an hour of merriment around the lamp and firelight of a home blots out many a care and annoyance during the day, and the best safeguard they can take with them into the world is the unseen influence of a bright little domestic circle. Put home first and foremost, for there will come a time when the home circle will be broken; when you will long for the touch of a vanished hand and the sound of a voice that is still.

A want of proper domestic economy has ruined the peace of many a family. There are women who could carry off their husband's stores on their backs and not half try. There are men who fancy when they marry that they are annexing something far more valuable than Cuba, and find later that they have on hand nothing more than a combined album. Godey's Lady's Book and medicine chest. There are two sides to the picture of home; a man who has a good wife has no right to complain though the whole earth be against him, for he's in the majority.

### A Minister's Wife.

A doctor's wife owes no duties to her husband's patients; a lawyer's wife owes no duties to her husband's clients; but a minister's wife is regarded as a kind of lady-shop, or, at least an unordained curate, who, by virtue of her position, is bound to discharge innumerable services to the congregation. She may be a young girl with no experience in human life and church business; but is expected to become the active president of all the benevolent institutions supported by the ladies of her husband's charge. She may have three or four children, whom she has to teach herself, and whose dresses must be made and mended by her own hands but she is expected to visit all the sick and the poor. She has her natural sympathies, and, however warm her heart may ebb toward everyone who likes her husband's preaching, she cannot be the intimate and confidential friend of every lady that belongs to the church; but people who themselves are far from being distinguished for a universal charity are indignant if she finds one house pleasanter than another, and if she naturally associates with ladies of her own age and with kindred tastes.

He who creates a beautiful smile creates a beautiful gem.

Everyone must have felt that a cheerful friend is like a sunny day, which sheds its brightness on all around; and most of us can as we choose make this world a place or a prison.

### PAINT FOR THE FARM.

The object of painting is to protect from atmospheric and other injury, but may be decorative as well as protective if colors are chosen with care and good taste.

For farm buildings, white is a clean and wholesome color, but is unsuited for use upon stock barns. If lead paint is used, because of the discoloring effect of fumes from the decaying organic matter. White may make the buildings over-conspicuous, but brown, gray or green, trimmed with a different tone of

the same color, fits them nicely into the color scheme of nature and harmonizes with the surrounding landscape.

Colors are important aside from the appearance of objects painted with them. Bright colors are often used as a cloak with which to conceal impurities, however, without the assistance of chemical analyses, impurities are difficult to detect, especially in the ready mixed paints. Paints must therefore be bought of a reliable dealer who knows and sells good paint, or only those brands of known quality must be purchased. Ready mixed paint when made by a reliable manufacturer should be better than the home mixed kind, because experience and skill are required to prepare it successfully.

There are some worthless brands or paint on the market and it is important to avoid them if possible. Some of the compounds sold as paint, or as substitutes for it, are not only valueless for the purpose for which they are sold, but are even destructive in their action.

The liquid portion of paint, the thinner or vehicle, should be from 85 to 95 per cent. linseed oil. The remaining portion of the thinner should be largely Japan dryer which is itself about one-fourth linseed oil. Very small quantities of turpentine and China wood oil may be allowed. For the solid portion, or pigment, of paint white lead, zinc oxide, oxide of iron, and red lead are satisfactory. Paints made from them may be tinted many colors by the use of other, amber, chrome yellow, prussian blue or bone black. The color is only a small part of paint and has little to do with its quality.

Ready mixed paints are satisfactory and economical for small jobs, such as interior work, painting farm machinery, wagons and other such equipment. If more than one coat is to be put on with ready-mixed paint it must be thinned for the priming coats by pouring off part of the contents of the can without stirring and thinning by the addition of small amounts of turpentine and linseed oil. The portion poured off is then returned to the can and all thoroughly mixed. The amount of thinning depends upon the kind of surface to be painted and the number of coats to be given. For the finishing coat, ready-mixed paint is used as it comes from the can, after a thorough stirring.

Paint should be well worked in with the brush across the grain of wood and finished with long smooth strokes the length of the board. Good results can be had only when the surfaces to be painted are dry and clean. Buildings should be dry inside as well as out, and each coat of paint should be allowed to dry thoroughly before beginning the next. Upon this depends the success or failure of the work. Paint may be made to stick to new tin and galvanized iron by cleaning the surface with benzine. Galvanized iron if exposed to the weather some time before painting will present less difficulty.

### WHY FARMERS SHOULD STUDY AGRICULTURE.

A few years ago farmers never thought about studying Agriculture; and they did not know anything about scientific farming. They thought physical labor was all that was necessary on the farm; and they were about right in this, for the soil was fertile then, and they generally raised good crops, if they applied plenty of physical labor.

As a result of their ignorance the soil has been worn out; and it has become necessary for farmers to study some methods of restoring its fertility. They can no longer raise good crops without knowing something about scientific Agriculture, because the soil is no longer fertile as it once was.

Yet, many farmers try to farm without any knowledge of scientific farming; but, instead of farming they are only sappling the fertility from almost exhausted soil. They should know something about retaining and restoring the fertility of the soil, in order that they may be able to keep the soil in good condition, instead of completely exhausting it.

The non-scientific farmer goes on year after year, doing the same thing in the same way, planting the same thing on the same ground, re-

ducing the fertility of the soil, and never trying to restore it. If anything gets wrong with his crops he does not know what it is, and does not know how to find out. He has not made a study of each plant, and does not know what conditions favor it and what conditions do not favor it. He does not know anything about crop rotation or giving the soil elements which it is lacking. He does not know how to raise good fruit. He does not spray his fruit trees; and his vineyards and orchards (if he has any) are always in bad condition. He does not know anything about raising good stock. He will let his cattle stand out in rain, snow, and sleet, during the winter, rather than build a cattle barn for them. His barns, fences, and out-houses are always in bad condition. He does not know anything about farm economy. He lets his farm machinery lay out in the weather and go to waste, instead of keeping it in the dry. In fact, the non-scientific farmer knows absolutely nothing about the things that are essential to good farming.

The scientific farmer knows just what to do and how to do it; and each year he progresses and his farm grows better, because he knows something about scientific Agriculture. He studies his crops and knows what to do if anything gets wrong with them. He has made a study of each plant and knows what conditions favor it and what conditions do not favor it. He knows to rotate his crops, and how to give the soil elements which it is lacking. He knows something about raising good fruit. He sprays his fruit trees; and his orchards and vineyards are always in good condition. He knows how to raise good stock; and his cattle do not stand out in the rain and sleet. His barns, fences and out-houses are always in perfect condition. He practices farm economy by taking good care of his farm machinery. The scientific farmer keeps everything running in perfect order; and he does not do any more physical labor than the non-scientific farmer; but he makes all of his work count.

The farms in the United States are comparatively new. They have been tilled only a few years; but they are almost worn out, because they have not been cared for in the right way. In China, where the soil has been tilled for thousands of years, they have better farms than we have. The average Chinese farm consists of about two and one-half acres; and a whole family is supported by what grows on this farm. The scientific Chinese farmer realizes about as much from his two and one-half acres farm, as the non-

### SUITOR SHOOT GIRL'S FATHER.

Wayne Plymale, according to news received here last Monday night, shot and perhaps mortally wounded Greene Charles at the latter's home on Raccoon creek, and made his escape, but was captured Tuesday morning at Grundy, Va., and lodged in jail to await authority for his extradition from the state of Virginia, and will be brought to Pikeville.

According to the official story, Plymale, a young man, had gone to visit Charles' daughter. The father objected to his attentions to the girl in the strongest language, and ordered him forth from the house. They both went into the yard where a quarrel ensued. Plymale drew a revolver, fired four shots and fled. Officers here were notified, and warning was wired to officials in every direction to keep a lookout for him. He was taken into custody by Baldwin detectives near Grundy Tuesday morning.

### FUGITIVE ARRESTED.

Claude Huffman was placed under arrest at his home on Island creek last Saturday under a fugitive warrant charging him with complicity in the murder of Luther Fiddler last March at Huntington. He will be taken to Huntington for trial.

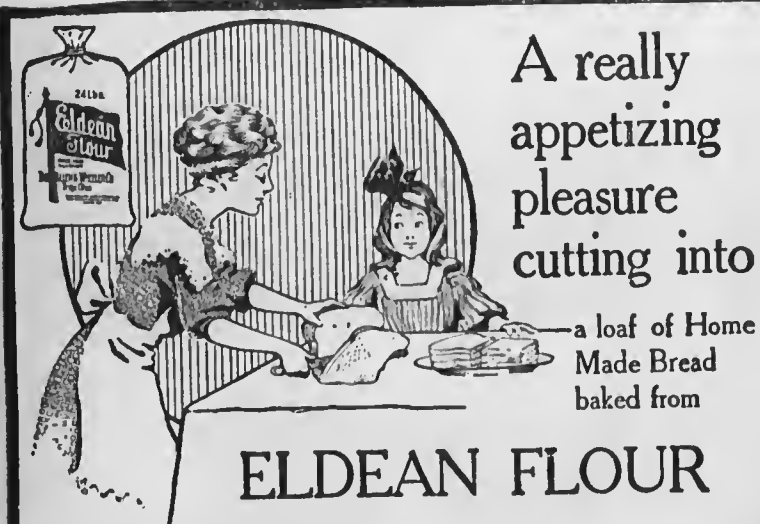

taken to Huntington for trial.

### CITIZENS PROTEST.

Petitions signed by thousands of Pike county citizens will be forwarded to the Legislature at its present session protesting against the proposed division of Pike into two new counties, which has been asked for by several saloon and real estate men of Williamson, West Va. Among other reasons urged by the citizens against the partition are:

1. That to get the new county upon its feet, erect new buildings and provide salaries for officers would require the expenditure of an enormous sum of money and thereby raise the taxation of the new county to an unbearable burden.  
2. That the new county thus carved off would be only a "shoe-string" on the map of Kentucky, and would leave the original county of Pike in the same condition. It has also been shown by files of local engineers that the new county line recently surveyed by the West Virginia engineers passes nearer Pikeville by four miles than the constitution of Kentucky allows.

3. That the prime object of the West Virginia interests in seeking the establishment of the new county in the murder of Luther Fiddler last March at Huntington. He will be taken to Huntington for trial.

shore of the Tug river. Chief among these promoters is said to be Mr. Ben Williamson, of Catlettsburg, who has acquired a fortune of perhaps half-a-million dollars in the hardware business with the people of the Big Sandy Valley. His father, Mr. Wallace Williamson, of Williamson, West Va., is holder of the title to an enormous acreage of real estate in the proposed new county, and it would be vastly to the interest of these gentlemen that the legislature establish the new county.

Whatever the issue of the matter may be, it is certain that sufficient economic reasons, the people of Pike county will never give their consent to such a frame-up division of their county.

### REVIVAL CLOSED.

The revival, under Revs. W. J. Smith and William Winter, of Ohio, was closed here Monday night. Many conversions and several accessions to the church are the results of the efforts of these gentlemen. The meetings continued for three weeks, and at every session enormous crowds attended packing the great court auditorium.

### SANTIAGO HARBOR HERO COMING.

According to announcement just issued by the management of Pikeville College, Col. Richmond Pearson Hobson, hero of Santiago Harbor, and recipient of thousands of kisses from the ladies of New York City after the event will appear to deliver a lecture at the Presbyterian church here on the evening of Monday, Feb. 9th. Col. Hobson is an international character, and is at present a representative in congress from the state of Alabama, and confederate of Hon. Oscar Underwood.

### SPECIAL JUDGE SICK.

Special Judge A. J. Kirk, of Paintsville, who convened a special term of the Pike circuit court Monday, became dangerously sick Tuesday night, and not being able to open the term of court Wednesday morning, advised the Governor by telegraph of that fact. A new judge will be appointed to reconvene the term at a future time.

### STARKEY HOME BURGLARIZED.

Thieves entered the home of N. Starkey in West Pikeville last Friday night, and took a large quantity of coffee and canned goods. The thieves entered at the kitchen window, and made their way into the basement, where several large cans of coffee and other supplies were stored. They pushed open a basement window, and placed the goods outside upon the ground. They then closed the window and made their way noiselessly back up stairs, and after passing through the dining room window, reentered it also. The burglary was not suspected until the supplies were missed some hours later, and a careful examination revealed the mode of operation of the yeggs.

The loss will amount to at least twenty-five dollars, and parties are suspected.

### DOUBLE WEDDING.

Sam Saad, manager of the Imp theater, left last week in company with his uncle, Aube Saad, of Blissfield, Mich. where he witnessed the double wedding last Sunday afternoon of his sister, Miss Imbilia Saad to Mr. A. J. Bassett, of Madison, W. Va., and of his niece, Miss Elizabeth Kerhany, to Mr. Albert Jamra, the latter of Ohio. The wedding occurred at the home of the parents of Miss Kerhany, and was largely attended.

Both girls are well known in Pikeville.

### MRS. LAWSON ATTACKED BY HEART FAILURE.

While attending a performance at the Imp theater last Friday night L. H. Lawson, formerly a sheriff of Pike-co., was stricken with heart failure. The attack was brought on, it is said, by a previous attack of acute indigestion, from which he has suffered for several years. He was taken to the Pike hotel, where he was immediately attended by Dr. M. Pinson, and a short while afterward the heart was restored to normal action and the attending physician announced that he would recover.

### TWO ICE PLANTS.

The new ice plant which arrived here three weeks ago and is now being set in place for the Pikeville Ice Co. by special experts will, it is said, be ready for the delivery of ice by the 15th of March. The new plant has a capacity of fifteen tons per day, and manager T. N. Huffman has decided not to tear out the old plant, but to retain it for emergencies and for the production of reserve supplies of ice. That is to say, both plants will very probably be kept in operation during the summer season.

### SPECIAL TERM.

Judge A. J. Kirk, of Paintsville, convened a special term of the Pike circuit court here Monday morning, which is to hold for a period of two weeks; at the close of which Judge J. F. Butler, who is now at Whitesburg, will convene the regular February term of the court on the third Monday. A large docket for both the special and regular term of the court waits to be tried.

### LOSES ARM.

Alex Mullins, an employee of the C. C. and O. railway company, on the construction work through the Brecks, was badly injured by the work train with which he was connected last week. He fell under the train, and his right arm was amputated, and was otherwise badly injured. He was quickly removed to the Elk Horn City hospital, where he now is. Mullins may recover.

## LETCHER COUNTY.

WHITESBURG, KY., Feb. 3.—After being in progress for three days the case of the commonwealth against old man John Blevins, aged 65 was closed, and, after deliberating one hour the jury returned a verdict of acquittal for the old man. Blevins killed Joe Craft at Meltober's Nov. 11 last year in self defense it is claimed.

The Lee Driver murder case was passed until the April term of court. At this time the damage suit of Joseph Holcomb against Blaine Collins Deputy Sheriff at Meltober's is one. Holcomb alleges that Collins arrested him without any cause and placed him in jail there without allowing him any bond, that he remained over night, etc. Much interest is manifested in the case.

It is expected that the court will close its term by Thursday.

The new Mission School at Blackey will not open until Monday, the 9th, according to an announcement from Rev. Talbot, of Jackson, one of the men behind the school. It is expected that the school will open with a large attendance and fine prospects for the future. An efficient corps of teachers have been employed.

A report is current that the Roberts Coal Co. will start within the next few weeks a big coal development on the J. L. Craft farm immediately below Kona on the Lexington and Eastern railroad, the arrangements having already been perfected. A modern up-to-date coal mining plant will be built with the latest model machinery, in which a large number of men will be employed. Congressman C. Bascom Slemp of the Ninth Virginia District is one of the men behind the Roberts Coal Co. It is said a part of their properties will be leased to operating companies who are to develop soon.

Uncle John Sturgill, who recently resigned the little fourth class post-office at Oven Fork in this county and secured the appointment of his successor was evidently one of the oldest postmasters in the whole of Eastern Kentucky in point of service. Uncle John had been postmaster at Oven Fork for thirty odd years, it being about the fifth office established in Letcher county. Owing to failing health the old veteran gave up the office.

The celebrated Uncle Isaac Williams will case that was fought out in the Letcher Circuit Court last week by Hiram Williams and Aunt Manda Williams, widow of the deceased man resulted in a verdict in favor of the old woman, that the will was good and legal. There was considerable interest in the suit as much property was entangled. Some of the best legal talent at the bar was employed.

It is expected that a considerable fight will arise here over the contest for the postoffice, the Civil Service examination to be held on the 25th. A number of democrats, including Democratic Chairman Hon. E. Caudill, Editor N. M. Webb, Ballard Salyer, and Felix G. Fields, the present postmaster, are applicants, are are "fighting the wind" so to speak.

Finley E. Fogg and M. C. Kirk, of Paintsville were interesting visitors here during the past week. It was

the occasion of their first visit into the Letcher County coal fields, having come via Jenkins, McRoberts and Fleming. To the NEWS correspondent Mr. Kirk said: "You have a great country and there is a great future in store for it."
